Major Mearns, U.S.A.

Dear Sir:-

I would like to know when to expect your party at Misamis, I have a trip to make along the coast to Balianao shortly and at the same time do not care to inconvenience you when you do come down to Misamis, being that your money is in my safe and you would probably desire to get same .

I would like to have been able to have passed a few days with you while you were ~~xxxxxx~~ up in the mountains but unfortunately I am the only one at Misamis at present and for some time past also was alone.

I am sending this letter with one of my men and your answer can be sent by him, that is if there is any certainty when you will come down.

Respectfully

J.H. Campbell
Lt. E.C.

Dear Major.

When you come
in, please come direct to
my house, where I shall be
glad to see you

Very truly,

E. L. Brewster

Headquarters Department of Mindanao,
Office of the Chief Surgeon,
Zamboanga, P.I.,

July 7, 1906.

Colonel William S. Scott,
Asst. Chief Philippine Constabulary,
Zamboanga, Mindanao, P. I.

Sir:-

In appreciation of the very valuable assistance which you gave in a Geographical and Biological reconnaissance of the Malindang Mountain Group, which was made under my charge during May and June, 1906, I would say that, you, in addition to personally securing the necessary preliminary information, authorized Lieutenant F. H. Campbell, commanding the post of Masamis, to assist in every possible way.

Lieutenant Campbell gave us every assistance, and extended much personal courtesy and hospitality to the members of the party. The route which Lieutenant Campbell recommended proved feasible, though difficult; and all of the information furnished by him proved to be correct.

Lieutenant James L. Wood was detailed to accompany the expedition, with six Constabulary soldiers, who were invaluable as interpreters, and in acting as escort to the seven parties sent out from the base camp at Catagan. Lieutenant Wood in addition to his extremely agreeable society, with his Constabulary, personally explored the entire valley of the Malabug River, tracing its branches to their sources in the Malindang Mountains in the vicinity of Mts. Lebo, Bliss and Bintad; and he also made an independent "hike" to the

W. S. S. No. 2.

Moro town of Balinsung, beyond the head of the gulf, for the purpose of trying to secure a guide to the peak of the Grand Malindang. He visited all of the Sulano and Moro pueblos in those directions, and must have secured much information which should prove to be valuable. He kindly allowed me to cull from his personal datasetential essential to mapping his trails on our map.

After Lieutenant Wood was ordered away to the command, a company of Constabulary at Iligan, his assistance did not cease, but, by correspondence and attending to commissions, secured information, instruments and supplies and got them to us.

The willing and efficient assistance of the Constabulary is, I assure you, most highly appreciated.

I have the honor to be

Very respectfully,

Edgar A. Mearns
